

Padox-library-app

Padox App: ebook library and furniture market.

- `index.html` is the whole app. It has no build step and no dependencies.
- Open it in a browser, or host it as-is (GitHub Pages, Netlify, any web host).

Add products

Open `index.html`, search for `PRODUCTS.push(` and copy a line. Set `p` to the price in GH¢ and `o` to the old price (optional, shows a discount badge).
